General Description While the content and the presentation of the teaching is entirely the Pastor's responsibility, we value the input of the Elders and other staff in discerning what topics are relevant and needed and in refining the style of presentation.

Our Purpose:

To plan, prepare and present the teaching component in worship services, seeking to hear God's voice and present topics that are relevant to where the congregation, in such a way as to inspire growth.

Our Values:

Teaching is a (perhaps, "the") main method of stimulating change and growth in the lives of Christians.

We value truth and accuracy.

We value relevance and inspirational value.

We seek the anointing of God on all teaching, since without it it will achieve nothing.

Our Vision:

To have topics planned at least 1 term ahead.

To increase the contribution of complementary ministries (e.g. drama)

To learn more about good communication and to increase the amount of variety of presentation techniques.

To discern the mind of God regarding those topics that are relevant.
